

# SPC Series

Advanced security for a connected world

## SPC Portfolio - Product Overview

## SPC series

Advanced security for a connected world

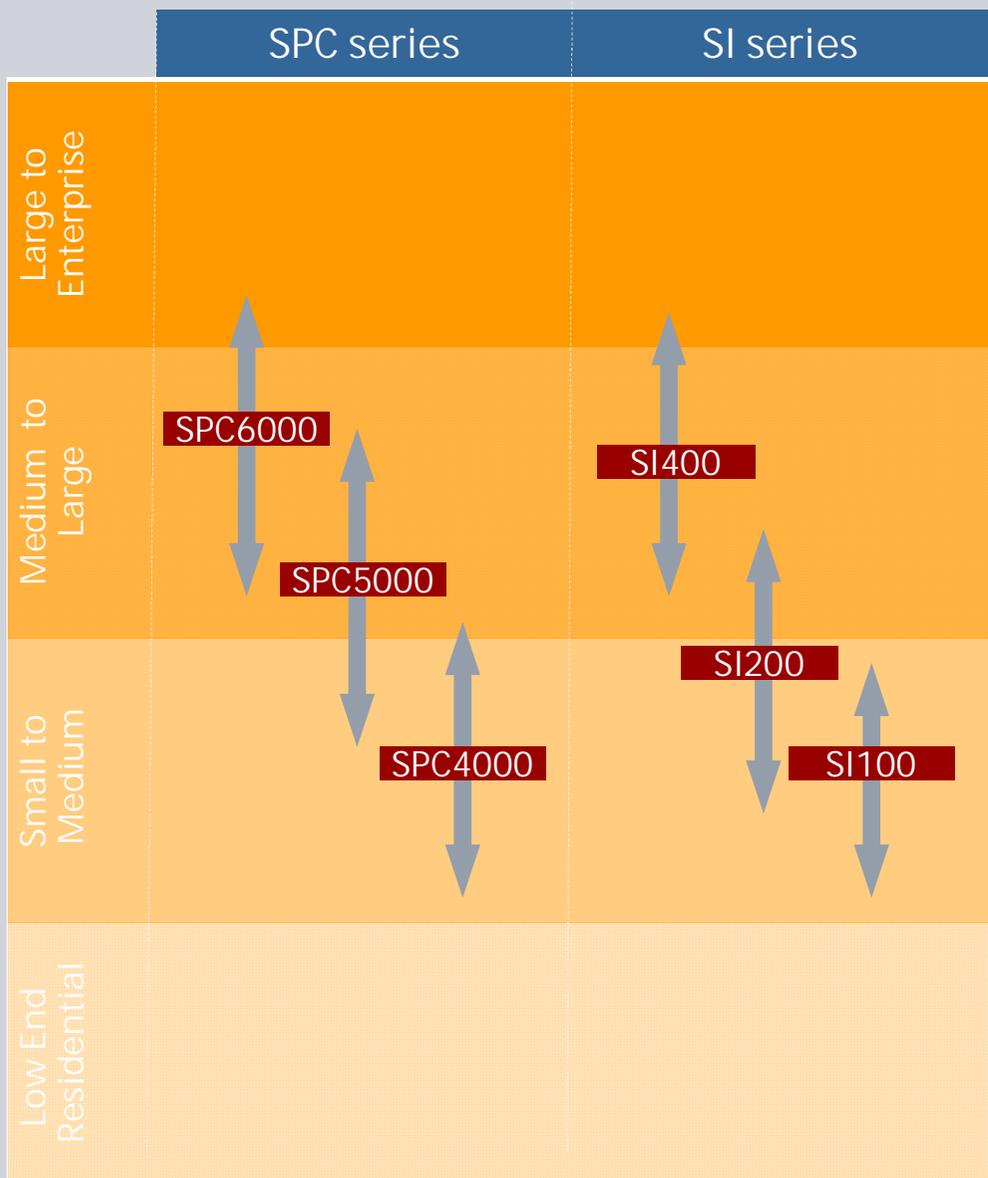

### System Functions

- Scalable system
- Multi-language system
- Embedded web server
- Multi-panel remote user management
- Access features
- Audio/Video Verification features
- Advanced functions for banks
- Wireless features
- Reliable high-speed expander bus

# SPC series Positioning

**SIEMENS**

**SPC series**  
Advanced security  
for a connected world

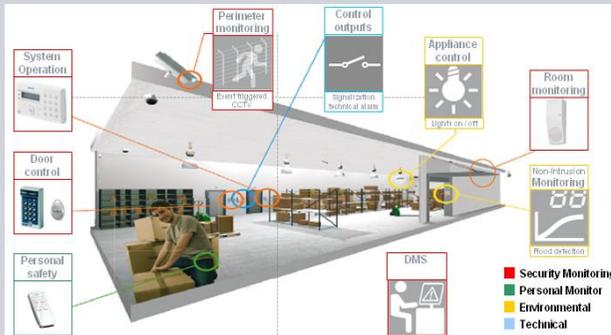

**SI series**  
Made-to-measure  
security

## SPC series

### SPC series positioning based on applications

#### Applications

#### System offering

#### Large to enterprise

e.g. commercial and industrial premises, airports

**SPC 6000**

#### Medium to large

e.g. Commercial premises, ATM area, bank main lobby

**SPC5000  
SPC6000**

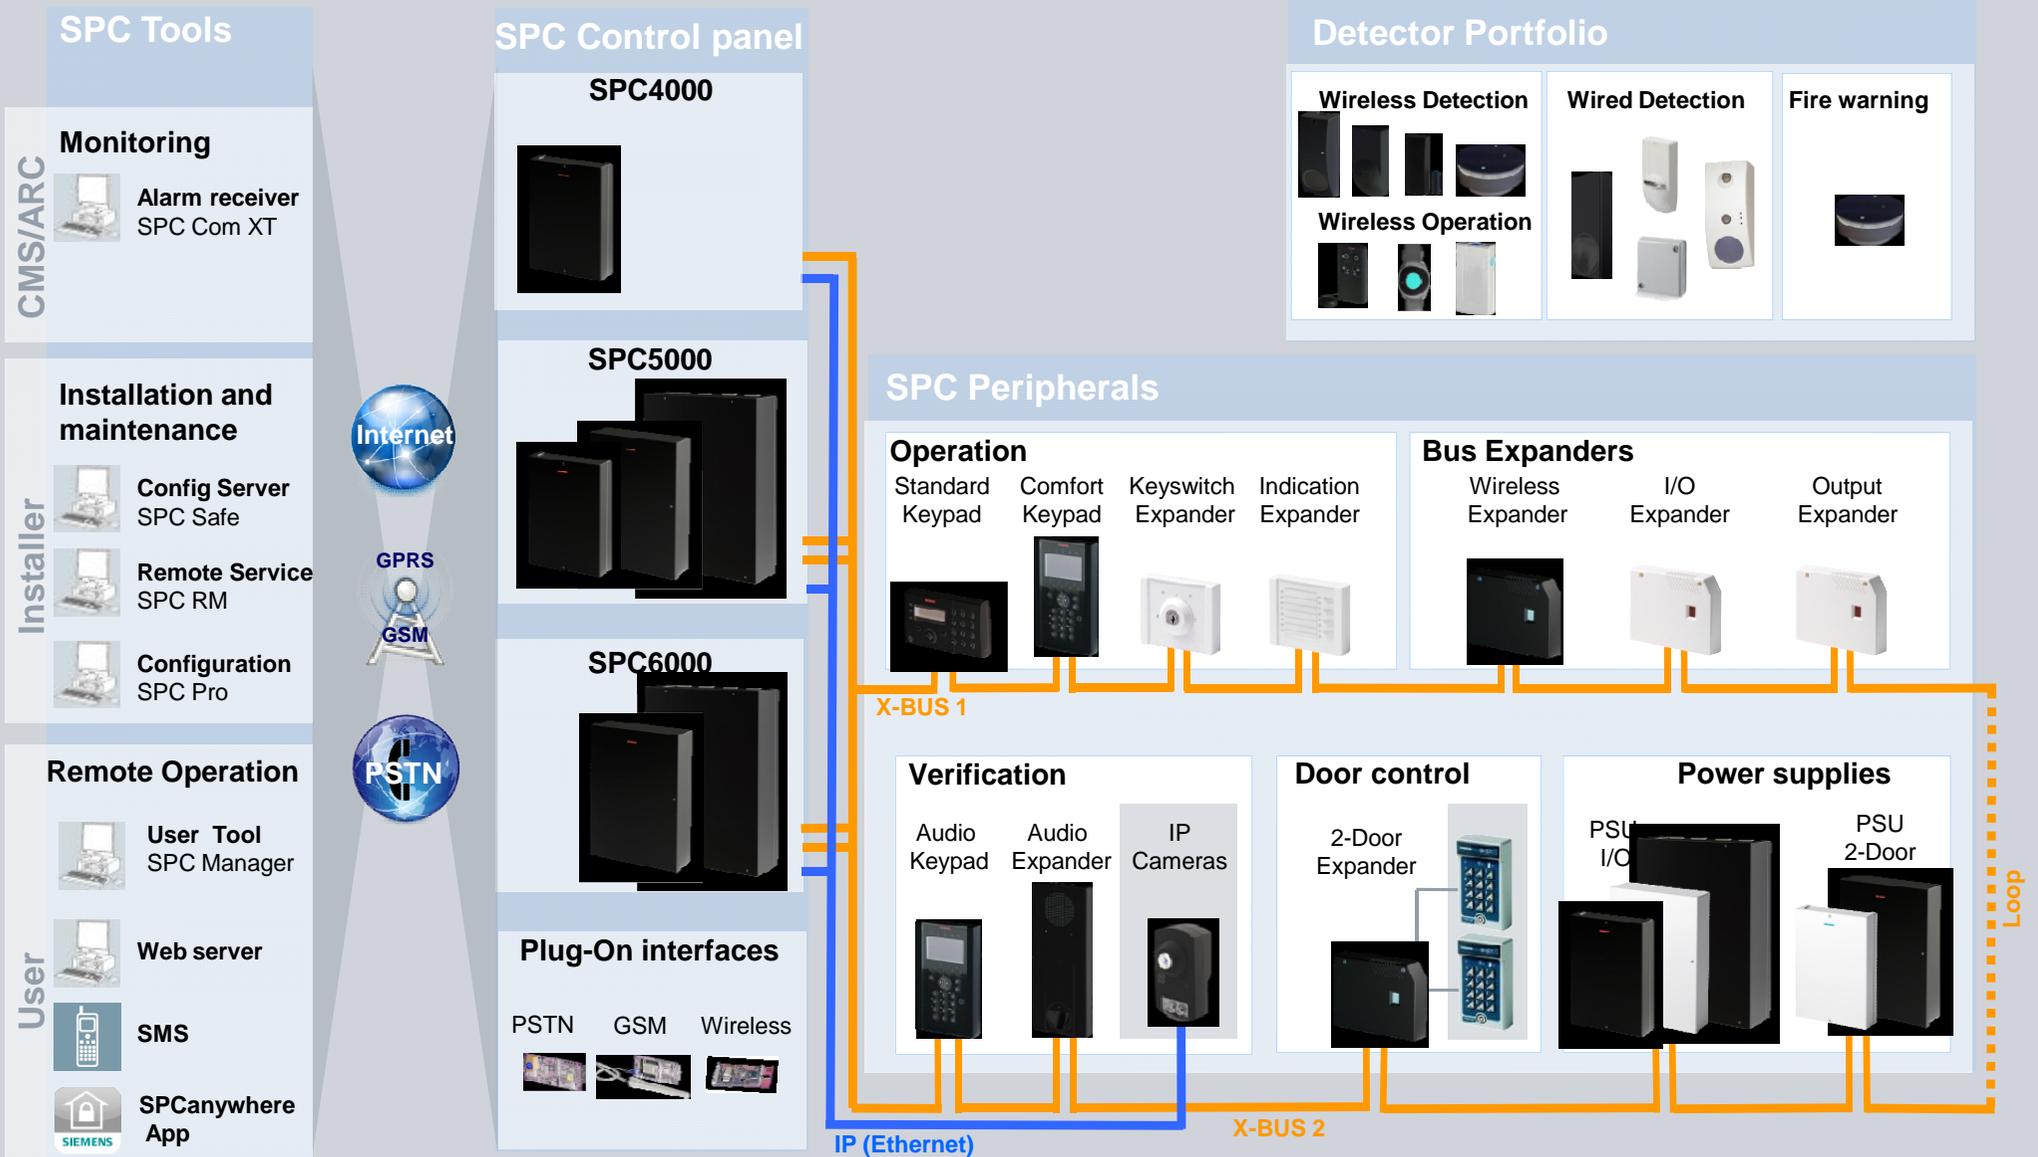

#### Small to medium

e.g. High end residential, SOHO, low end commercial shop areas, storage space, petrol stations

**SPC4000**

# SPC4000 Series

## Small Commercial panel

### Product Highlights

- Small commercial applications
- Integrated access control
- Hybrid panel

### Technical Specification

<b>Areas</b>	4
<b>Keypads</b>	4
<b>Wired / Wireless Zones</b> (min. .. max.)	8..32 / 32
<b>Outputs</b> (min. .. max.)	6..30
<b>Users</b> (max.)	100
<b>Fieldbus Interface</b>	1 X-Bus (1 Stubs), 11 Devices
<b>Communication Interface</b>	Ethernet (SPC43xx), PSTN, GSM/GPRS (opt.)
<b>Web Server</b>	Integrated (multi-language)
<b>Doors</b> (Entry / Entry-Exit )	4 / 2
<b>Log events Intrusion+Access</b>	Intrusion 1000 + Access 1000
<b>Calendars</b>	4
<b>Cause &amp; Effects</b>	Triggers 8 / Gates 4
<b>Panel FW</b>	V3.2
<b>Mechanical</b>	Metal G2 base with Plastic cover (SPC4xxx.220) Small G2 metal housing (SPC4xxx.320), 7Ah
<b>Wireless</b>	Integrated SiWay receiver (SPC4221.220)

### Product Offering and Variants

- SPC4320.320 G2, metal housing, IP, 7Ah, (FW V3.4)
- SPC4320.220 G2, met base /plastic cover, IP, 7Ah( V3.4)
- SPC4221.220 G2, met b / pl cover, wireless, no IP, (V3.4)

### Key Features

- Easy to install, configure and use
- Integrated Access control
- Audio/Video Verification
- SPC Manager support
- Multi Language support

# SPC5000 Series

## Medium to large Commercial panel

### Product Highlights

- Medium commercial applications
- Integrated access control

### Technical Specification

<b>Areas</b>	16
<b>Keypads</b>	16
<b>Wired / Wireless Zones</b> (min. .. max.)	8..128 / 120 (G2/G3)   16..128 / 120 (G5)
<b>Outputs</b> (min. .. max.)	6..128 (G2/G3)   12..128 / 120 (G5)
<b>Users</b> (max.)	500
<b>Fieldbus Interface</b>	2 X-Bus (2 Stubs or 1 Loop), 48 Devices
<b>Communication Interface</b>	Ethernet (native), PSTN, GSM/GPRS (optional)
<b>Web Server</b>	Integrated (multi-language)
<b>Doors</b> (Entry / Entry-Exit )	16 / 16
<b>Log events</b>	Intrusion 10000 + Access 10000
<b>Calendars</b>	32
<b>Cause &amp; Effects</b>	256 Triggers / 128 Gates
<b>Panel FW</b>	V3.4
<b>Auxiliary Power</b>	750 mA (G2/G3)   2200mA @ 12 VDC (G5)
<b>Mechanical</b>	Small G2 metal housing (7Ah) Hinged G3 metal housing (17Ah) Large G5 metal housing (2x 27Ah)

### Product Offering and Variants

- SPC5320.320 G2, IP, 7Ah (FW V 3.4)
- SPC5330.320 G3, IP, 17 Ah, (FW V 3.4)
- SPC5350.320 G5, IP, 2x 27Ah, (FW V 3.4)

### Key Features

- Easy to install, configure and use
- Integrated Access control
- Audio/Video Verification
- Specialized banking functions
- SPC Manager Support
- Long standby times

# SPC6000 Series

## Large Industrial and Commercial panel

### Product Highlights

- Large commercial or industrial applications
- Integrated access control

### Technical Specification

<b>Areas</b>	60
<b>Keypads</b>	32
<b>Wired / Wireless Zones</b> (min. ... max.)	8..512 / 120 (G2/G3)   16.. 512 / 120 (G5)
<b>Outputs</b> (min. ... max.)	6..512 (G2/G3)   12.. 512 / 120 (G5)
<b>Users</b> (max.)	2500
<b>Fieldbus Interface</b>	2 X-Bus (2 Stubs or 1 Loop), 128 Devices
<b>Communication Interface</b>	Ethernet (native), PSTN, GSM/GPRS (optional)
<b>Web Server</b>	Integrated (multi-language)
<b>Doors</b> (Entry / Entry-Exit )	64 / 32
<b>Log events</b>	Intrusion 10000 + Access 10000
<b>Calendars</b>	64
<b>Cause &amp; Effects</b>	1024 Triggers / 512 Gates
<b>Panel FW</b>	V3.4
<b>Auxiliary Power</b>	750 mA (G3)   2200mA @ 12 VDC (G5)
<b>Mechanical</b>	Hinged G3 metal housing (17Ah) Large G5 metal housing (2x 27Ah)

### Product Offering and Variants

- |             |                           |
|-------------|---------------------------|
| SPC6330.320 | G3, IP, 17Ah (FW V3.4)    |
| SPC6350.320 | G5, IP, 2x 27Ah (FW V3.4) |

### Key Features

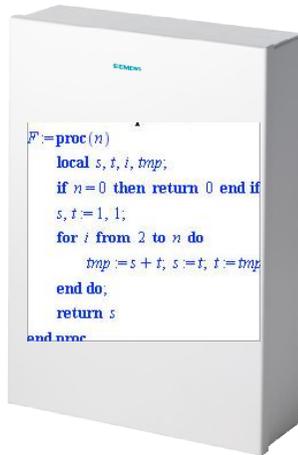

- Easy to install, configure and use
- Integrated Access control
- Audio/Video Verification
- Specialized banking functions
- SPC Manager Support
- Long standby times

# SPC Firmware V3.4

## SPC Firmware – Support for SPC Manager and VdS Functions

### Product Highlights

- Multi-panel remote user management
- Configurable languages

### Product Offering and Variants

V3.4                  Panel FW

### Features

<b>Standard Features</b>	Multi-Area operation Multi-Language Web interface for control and configuration Wireless support Voice annunciation SPC tool support (SPC Safe, SPC Remote Maintenance) Audio/video Verification Financial Features (under license) Configurable Languages
--------------------------	--

<b>NEW SPC Manager support</b>	Multi-panel remote user management and control by supporting SPC Manager SW
<b>VdS specific functions</b>	Blockschloss Support
<b>New EOL Combinations</b>	Support of MAGIC motion detector EOL (incl. Antimask) Additional EOL to support migration of competitor installations
<b>Multi-Language</b>	en + 4 imported language files (out of de, en, es, fr, it, nl, sv, customised)

## SPCK620/623

### SPC Comfort Keypad

#### Product Highlights

- The SPCK620 and SPCK623 are the comfort keypads for the SPC control panel family. They sport a graphical display, optional card reader and audio functionality.

#### Technical Specification

<b>Display</b>	Fully graphical dot matrix display (128x64 pixels)
<b>Status LED</b>	5 tri-color
<b>Mic/Speaker</b>	SPCK620: Integrated Sounder SPCK623: Integrated Speaker and Microphone
<b>Card reader</b>	SPCK623: Integrated 125kHz reader, EM4102 compatible
<b>Interface</b>	X-Bus
<b>Operating Voltage</b>	9.5 - 14 VDC
<b>Current</b>	SPCK620: min. / max. 55 mA / 155 mA @ 12 VDC SPCK623: min. / max. 110 mA / 230 mA @ 12 VDC

#### Product Offering and Variants

SPCK620.000	Comfort Keypad
SPCK623.000	Comfort Keypad, Card reader, Audio

#### Key Features

- Multi-Area Keypad Operation
- Control and configuration
- SPCK623: Voice annunciation / Audio Verification
- SPCK623: Logon procedure with "Card only" or "Card + PIN"

## SPCK420/421

### SPC Standard Keypad

#### Product Highlights

- The SPCK420 and SPCK421 are the standard keypads for the SPC control panel family. They support a two line display, optional card reader and a connector for the optional SiWay receiver.

#### Technical Specification

<b>Display</b>	2 line x 16 Character Display	
<b>Status LED</b>	3 tri-color	
<b>Sounder</b>	Integrated	
<b>Card reader</b>	SPCK421: Integrated 125kHz reader, EM4102 compatible	
<b>RF receiver</b>	Optional: Socket for SiWay receiver SPCW112	
<b>Interface</b>	X-Bus	
<b>Operating Voltage</b>	9.5 - 14 VDC	
<b>Current</b>	SPCK420	min. / max. 45 mA / 90 mA @ 12 VDC
	SPCK421	min./max. 80 mA / 110 mA @ 12 VDC

#### Product Offering and Variants

SPCK420.100	Standard Keypad
SPCK420.100-N	Standard Keypad (no logo)
SPCK421.100	Standard Keypad, CR

#### Key Features

- Single Area Keypad
- 3 Status LEDs
- Easy menu operation through soft keys
- SPCK421: Logon procedure with "Card only" or "Card + PIN"
- Integrated SiWay receiver

# SPCE120

## SPC Indication Expander

### Product Highlights

- The SPCE120 is an indication expander for the SPC control panel family.

### Technical Specification

<b>LEDs</b>	16 tri-colour
<b>Keys</b>	4 Function keys
<b>Sounder</b>	Integrated
<b>Card reader</b>	Integrated 125kHz reader, EM4102 compatible
<b>Interface</b>	X-Bus
<b>Zone inputs</b>	1 (configurable)
<b>Zone monitoring</b>	None, 1 EOL, 2 EOL, 3 EOL
<b>Operating voltage</b>	9.5 - 14 VDC
<b>Current</b>	min. / max. 30 mA / 70 mA @ 12 VDC

### Product Offering and Variants

SPCE120.100    Indication Expander

### Key Features

- Status indication and operation for authorized users only (e.g. PIN and/or card)
- Activate processes with Soft Keys (e.g. set/unset, open a door, activate light)
- 1 Zone input to reduce detector wiring and number of expanders
- Full configuration and control via X-Bus without jumpers or other external interfaces

# SPCE110

## SPC Key Switch Expander

### Product Highlights

- The SPCE110 is a key switch expander for the SPC control panel family.

### Technical Specification

<b>LEDs</b>	2 tri-color
<b>Key Switch</b>	3 Positions (1-0-2)
<b>Sounder</b>	Integrated
<b>Interface</b>	X-Bus
<b>Outputs</b>	1 Relays (30 VDC / 1 A), configurable
<b>Operating voltage</b>	9.5 - 14 VDC
<b>Current</b>	min. / max. 30 mA / 50 mA @ 12 VDC

### Product Offering and Variants

SPCE110.100    Key Switch Expander

### Key Features

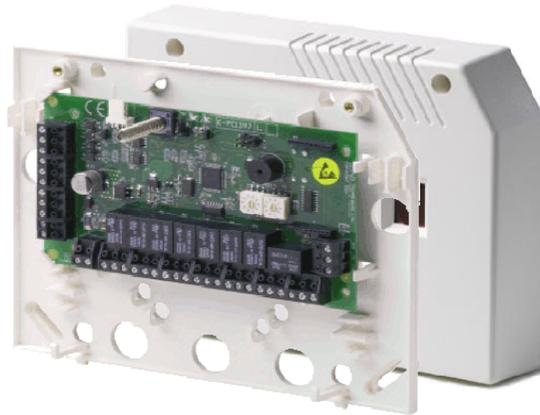

- Front tamper protected
- Activate processes with a key (e.g. set/unset, open door shunt zone)
- System status information with 3-colour LED's
- Lock/unlock of keypad and indication expander
- 1 Output

## SPCE452

### SPC Output Expander

#### Product Highlights

- The SPCE452 is an output expander on the X-Bus for the SPC control panel family.

#### Technical Specification

<b>Outputs</b>	8 Relays (single-pole changeover) 30 VDC / max. 1 A resistive switching current) NC and NO Terminals
<b>Sounder</b>	Integrated
<b>Interface</b>	X-Bus
<b>Operating voltage</b>	9.5 - 14 VDC
<b>Current</b>	min. / max. 40 mA / 190 mA @ 12 VDC

#### Product Offering and Variants

SPCE452.100    SPC Output Expander w. back tamper

#### Key Features

- Front / back tamper protected
- Easy device localization by on-board sounder and LED
- Automatic or manual addressing (rotary switches) of X-BUS devices

# SPCE652

## SPC Input/Output Expander

### Product Highlights

- The SPCE652 is a combined input/output expanders on the X-Bus for the SPC control panel family.

### Technical Specification

<b>Zones</b>	8 Inputs
<b>Zone Monitoring</b>	None, 1 EOL, 2 EOL, 3 EOL
	EOL resistor Dual 4k7/4k7 (default) and 14 other values/combinations
<b>Outputs</b>	2 Relays (30 VDC / 1 A) with NO and NC terminals
<b>Sounder</b>	Integrated
<b>Operating voltage</b>	9.5 - 14 VDC
<b>Current</b>	min. / max. 40 mA / 80 mA @ 12 VDC

### Product Offering and Variants

SPCE652.100 SPC I/O Expander with back tamper

### Key Features

- Front / back tamper protected
- Easy device localization by on-board sounder and LED
- Automatic or manual addressing (rotary switches) of X-BUS devices
- EOL setting for 3 resistor values enables anti-mask detector wiring

# SPCW130

## SPC Wireless Expander

### Product Highlights

- The SPCW130 is a wireless expander for the SPC control panel family, which provides an wireless access point for the SiWay wireless devices.

### Technical Specification

<b>Wireless Protocol</b>	SiWay, 868MHz
<b>Sounder</b>	Integrated
<b>Interface</b>	X-Bus
<b>Antenna</b>	Integrated
<b>Operating voltage</b>	9.5 - 14 VDC
<b>Current</b>	min. / max. 60 mA / 60 mA @ 12 VDC

### Product Offering and Variants

SPCW130.100    SPC SiWay Wireless Expander

### Key Features

- Front tamper protected
- Automatic or manual addressing (rotary switches) of X-BUS devices
- Access point which allows to receive the full range of SiWay wireless devices

# SPCA210

## SPC 2-Door Expander

### Product Highlights

- The SPCA210 is an X-Bus expander for the SPC control panel family, which enables door control on the SPC system.

### Technical Specification

<b>Door capacity</b>	2 (support for 2 entry doors or 1 entry/exit door)
<b>Reader interface</b>	clock/data or Wiegand 26 Bit , others (auto detect)
<b>Door control Interfaces</b>	4 zone inputs (2 Door Position, 2 Door Release) 2 Relay outputs, 30 VDC / 1 A (Door Lock)
<b>Zone input EOL Resistor</b>	Dual 4k7/4k7 (default) and 14 other values/combinations
<b>Sounder</b>	Integrated
<b>Bus Interfaces</b>	X-Bus
<b>Operating voltage</b>	9.5 - 14 VDC
<b>Current</b>	min. / max. 45 mA / 80 mA @ 12 VDC

### Product Offering and Variants

SPCA210.100    SPC 2-Door Expander

### Key Features

- Door controller standalone capability of up to 512 priority card holders in case of communication loss to panel
- Automatic protocol recognition of connected card readers
- Programmable inputs/outputs of unused door resources (e.g. if only 1 door is managed by the door controller)

# SPCV440/410

## SPC Combi Audio Expander and Satellite

### Product Highlights

- The SPCV440 is a Combi Audio Expander on the X-BUS to enable audio verification in combination with plugged in 12m MAGIC motion detector. The audio range can be enhanced by connecting additional audio satellites SPCV410.

### Technical Specification

<b>Speaker/Mic</b>	Internal Loudspeaker: 5W / 16 Ω Microphone: Foil electrets condenser microphone
<b>Outputs</b>	SPCV440 : 1 open collector
<b>Inputs</b>	SPCV440: 4 Zone inputs (each connected MAGIC motion detector takes away 1 zone )
<b>Detector Interface</b>	Plug-in for 12 m MAGIC motion detector
<b>Bus interface</b>	SPCV440: X-Bus SPCV410: none
<b>Satellite Interface</b>	SPCV440: Up to 3 Combi audio satellites (SPCV410)
<b>Mechanical Dimensions</b>	106 x 261 x 42 mm)
<b>Operating Voltage</b>	9.5 - 14 VDC
<b>Current</b>	SPCV440: min. / max. 60 mA / 75 mA @ 12 VDC SPCV410: min. / max. 1 mA / 7 mA @ 12 VDC (without satellites or motion detectors)

### Product Offering and Variants

SPCV440.000	Combi Audio Expand. with 1 output
SPCV410.000	Combi Audio Satellite

### Key Features

- Seamless fitting of MAGIC motion detectors (12m version) into the prewired Combi Audio Expander and Satellite.
- Large Audio coverage with up to 3 additional Audio Satellites
- Pre-/post event audio recording ,
- Live audio over X-Bus (half duplex) in excellent audio quality
- Front t/ back tamper

# SPCV340/341/310

## SPC Combi Audio Expander and Satellite

### Product Highlights

- The SPCV340/341 are Audio Expander son the X-BUS to enable audio verification . The audio range can be enhanced by connecting additional audio satellites SPCV310.

### Technical Specification

<b>Speaker/Mic</b>	Internal Loudspeaker: 5W / 16 Ω Microphone: Foil electrets condenser microphone
<b>Outputs</b>	SPCV340 : 1 open collector SPCV341: 1 line output (100 Ω / 0.775V RMS, suitable for connection to audio pre-amplifier)
<b>Inputs</b>	SPCV340/341: 4 Zone inputs (configurable)
<b>Bus interface</b>	SPCV340/341: X-Bus SPCV310: none
<b>Satellite Interface</b>	SPCV340/341: Up to 3 audio satellites (SPCV310)
<b>Mechanical Dimensions</b>	106 x 141 x 42 mm)
<b>Operating Voltage</b>	9.5 - 14 VDC
<b>Current</b>	SPCV440: min. / max. 60 mA / 75 mA @ 12 VDC SPCV410: min. / max. 1 mA / 7 mA @ 12 VDC (without satellites or motion detectors)

### Product Offering and Variants

SPCV340.000	Audio Expander w .4 input s /1 output
SPCV341.000	Audio Expander w. 4 inp. / 1 line outp .
SPCV410.000	Audio Satellite

### Key Features

- Pre-/post event audio recording ,
- Live audio over X-Bus (half duplex) in excellent audio quality
- SPCV340/341:4 zone inputs to reduce detector wiring and number of expanders
- SPCV341: Interface to external amplifier for perimeter audio challenge
- Front t/ back tamper

# SPCP332/333/355

## SPC Power Supply Unit with Input/Output Expander

### Product Highlights

- The SPCP332 / SPCP333 / SPCP355 are the power supply units with integrated Input/Output Expander for the SPC control panel family. They allow to add local power sources on the X-Bus in order to allow big systems sizes.

### Technical Specification

<b>Auxiliary Power</b>	SPCP33x: 2 x 750 mA @ 12 VDC SPCP355: 2360 mA @ 12 VDC
<b>Max. Battery Size</b>	SPCP332: 7Ah (not included) SPCP333: 17Ah (not included) SPCP355: 2 x 27Ah (not included)
<b>Inputs</b>	8 Zone inputs
<b>Output</b>	SPCP33x: 2 relays (30 VDC / 1 A) SPCP355: 3 relays (30 VDC / 1 A) + 3 supervised (300 mA)
<b>Sounder</b>	Integrated
<b>Interface</b>	X-Bus
<b>Mechanics</b>	SPCP332: Small G2 metal housing SPCP333: Hinged G3 metal housing SPCP355: Large G5 metal housing

### Product Offering and Variants

SPCP332.300	PSU with I/O Expander, G2 (7Ah)
SPCP333.300	PSU with I/O Expander, G3 (17 Ah)
SPCP355.300	PSU with I/O Expander, G5 (1x 27Ah)

### Key Features

- 12VDC auxiliary power outputs to drive security devices as keypads, expanders
- Enables split of X-BUS in sections with independent powering of devices
- Built in 8 input / 2 output expander (SPCE650) in tamper protected PSU cabinet
- SPCP33x: Shortcut protection by thermo fuses
- SPCP355: 8 separately fused 12 VDC outputs, max. 300mA per output)
- SPCP355: Supervised Outputs

# SPCP432/433

## SPC Power Supply Unit with 2-Door Expander

### Product Highlights

- The SPCP432 and SPCP433 are the power supply units with integrated 2-Door Expander for the SPC control panel family. They allow to add local power sources on the X-Bus in order to allow big systems sizes.

### Technical Specification

<b>Auxiliary Power</b>	2 x 750 mA @ 12 VDC
<b>Max. Battery Size</b>	SPCP432: 7Ah (not included) SPCP433: 17Ah (not included)
<b>Door capacity</b>	2 (support for 2 entry doors or 1 entry/exit door)
<b>Reader interface</b>	clock/data or Wiegand 26 Bit (auto detect)
<b>Door control Interfaces</b>	4 zone inputs (2 Door Position, 2 Door Release) 2 Relay outputs, 30 VDC / 1 A (Door Lock)
<b>Sounder</b>	Integrated
<b>Interface</b>	X-Bus
<b>Mechanics</b>	SPCP432: Small G2 metal cabinet SPCP433: Large G3 metal cabinet

### Product Offering and Variants

SPCK432.300	PSU with 2-Door Expander (G2)
SPCK433.300	PSU with 2-Door Expander (G3)

### Key Features

- Two 12VDC auxiliary power outputs to drive security devices as keypads, expanders
- Enables split of X-BUS in sections with independent powering of devices
- Built in 2-Door Expander (SPCA210) in tamper protected PSU cabinet
- Fully supervised PSU
- Shortcut protection by thermo fuses

# SPCS410

## SPC Safe

### Product Highlights

- The SPCS410 is a software tool for the SPC panel series. It serves as a repository for SPC configuration files.

### Technical Specification

<b>System Requirements</b>	Operating System:	Windows XP (32bit) Windows 7 (32bit & 64bit)
	Hardware Server	min. Intel Xeon E5405 Processor, 2GHz, 4 GB RAM or compatible
	Hardware Client	Intel Core i3 CPU M330 @ 2.13 GHz, 4 GB RAM or compatible
<b>System Architecture</b>	Client/Server	
<b>Database</b>	Microsoft SQL Server 2005	
<b>Max. Number of Sites</b>	1000	
<b>Communication Protocol</b>	Proprietary (via TCP/IP)	

### Product Offering and Variants

SPCS410.000    SPC Safe Software

### Key Features

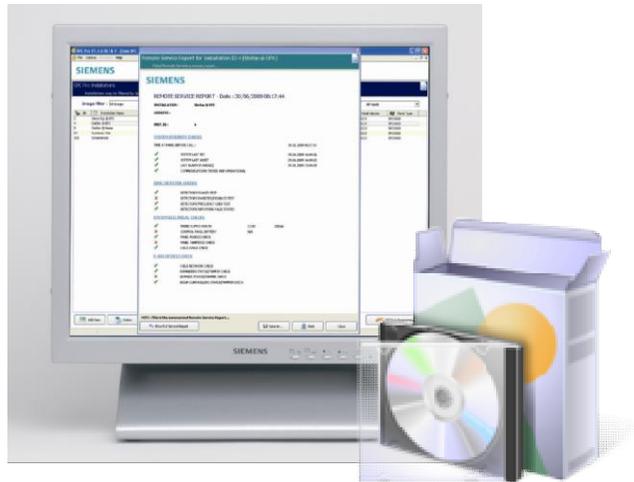

- Central storage and management of SPC configuration files
- Central database is automatically updated after a locally performed site configuration change (e.g. user PIN)
- Upload to SPC Safe supported via IP
- Configuration file import and export (to SPC Pro)

# SPCS320

## SPC Remote Maintenance Server

### Product Highlights

- The SPCS320 is a software tool for the SPC panel series. It enables the user to get automated maintenance reports from an SPC installation.

### Technical Specification

<b>System Requirements</b>	Operating System:	Windows XP (32bit) Windows Vista
	Software	SPC Pro
	Hardware	min. 1GB Memory
<b>Database</b>	Microsoft	
<b>Max. Number of Sites</b>	250	
<b>Communication Protocol</b>	Proprietary (via TCP/IP, PSTN, GSM)	

### Product Offering and Variants

SPCS320.000    SPC Remote Maintenance Server

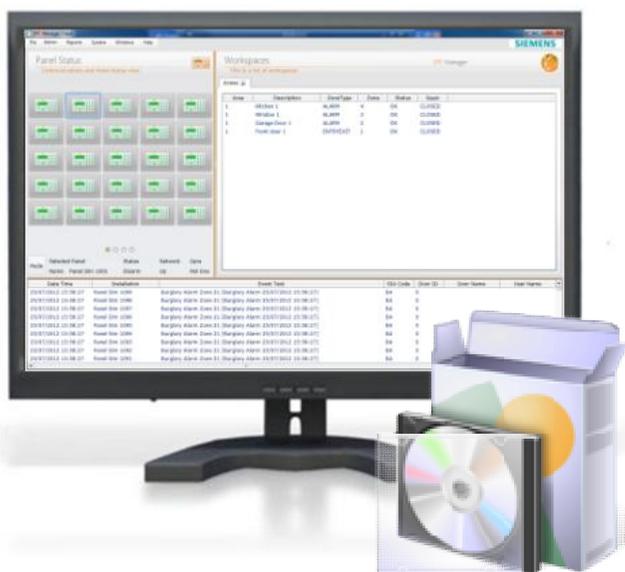

### Key Features

- Automatic reporting of technical SPC panel status and integrity to remote maintenance server (as scheduled on the SPC panel)
- Generation of a (customizable) remote maintenance report
- Remote maintenance report on request

# SPCS610 SPC Manager

## Product Summary

- SPCS610 is User Management software tool for the creation, control & modification of access-based functionality within the SPC system.

## Key Features

<b>System Architecture</b>	Client/Server
<b>Database</b>	Microsoft SQL Server 2005 or 2008
<b>Max. Number of SPC panels</b>	Depending on License 5 Basic License* 100 Standard license 1000 Advanced license
<b>Max. Nb. of users in panel</b>	Up to 2500 (Depending on panel type)
<b>Max. Nb. of SPC Manager Clients</b>	Depending on License 1 Basic License* 10 Standard license 50 Advanced license

\* SPC Manager trial version with full feature set of the Basic license for a limited period of 30 days

## Product Offering

SPCS610.000	SPC Manager – Trial
SPCS610.100	Basic License for SPC Manager
SPCS610.200	Standard License for SPC Manager
SPCS610.300	Advanced License for SPC Manager

## Key Features

- Multi-panel remote operation (e.g. Door control, area set/unset, output control)
- Remote user management (create, edit, delete users over a group of panels)
- Remote access data management (cards, calendars)

# SPCS520

## SPC Com XT

### Product Highlights

- The SPCS520 is a software alarm receiver to enable CMS/ARCs to receive the EDP alarm-over-IP protocol of the SPC panel series. It connects to an alarm management solution via the Surgard interface.

### Technical Specification

<b>System Requirements</b>	Operating System:	Windows XP (32bit) Windows 7 (32bit, 64bit)
	Hardware Server	min. Intel Xeon E5405 Processor, 2GHz, 4 GB RAM
	Hardware Client	Intel Core i3 CPU M330 @ 2.13 GHz, 4 GB RAM, Audio
<b>System Architecture</b>	Client/Server	
<b>Database</b>	Microsoft SQL Server 2005	
<b>Max. Number of Sites</b>	1000 (10 without license)	
<b>Alarm interface</b>	Sur-Gard MRLII	
<b>Communication Protocol</b>	EDP (via TCP/IP) AES, 128 bit key length (via IP)	

### Product Offering and Variants

SPCS520.000    SPC Com XT  
(available on request)

### Key Features

- Receive alarm and audio/video verification from SPC Panel via IP
- Audio and video verification: listen/view pre-/post-event audio and video traces
- Live audio and video: live listen-In/talk-in, Live video (sequence of pictures)
- TCP/IP transmission
- Encryption (AES128)
- Basic Front-End (Site setup, Set/Unset, Inhibit zone, set logical output. control doors)

## SPCS310

### SPC Pro

#### Product Highlights

- SPC Pro is the configuration SW for installers for SPC panels.

#### Technical Specification

<b>System Requirements</b>	Operating System:	Windows XP/Vista
----------------------------	-------------------	------------------

<b>System Architecture</b>	Standalone PC Software
----------------------------	------------------------

#### Product Offering and Variants

SPCS310      V3.4.5 (for Panel FW V3.4 or older)

#### Key Features

- Installer configuration tool for SPC panels (locally and remotely)
- Remote configuration via PSTN, GSM and IP
- Local configuration via RS232, USB and IP
- Live overview of system status / Control of the system
- Update of panel and peripheral FW
- SPC Pro is free of charge and delivered with panel

# SPCanywhere Mobile Application

## Product Highlights

## Specification

<b>Requirements</b>	Device	iPhone4(S)/5, iPad (2)
	Operating system	Android phones and tablets iOS5 or later Android

---

<b>Max. Sites</b>	4 (plus one demo site)
-------------------	------------------------

---

<b>Screen views</b>	Site select view Area overview and control Zone overview and control Door status and control Output control Camera view Log file view: intrusion log, access log, WPA log Settings
---------------------	---

## Product Offering and Variants

SPCanywhere V1.1 download from Apple Appstore or Google Play

## Key Features

- Optimised for iPhone/iPad s and Android Phones and Tablets
- Multi-Site capable
- Control: set/unset/part set, inhibit or isolate zones, door control, outputs
- View cameras
- Application lock

# SPCW110/112

## SiWay wireless Module

### Product Highlights

- The SPCW110 and SPCW112 are wireless access points, which enable the SPC control panel or standard keypad to communicate with SiWay wireless components.

### Technical Specification

<b>Interface</b>	Rf interface connector
<b>RF Protocol</b>	SiWay, 868MHz
<b>Mounting</b>	SPCW110: Plug-on module to panels with metal cabinet SPCW112: Plug-on module to keypads SPCK420/421 and to panels with plastic cabinet / lid
<b>Power Supply</b>	Via SPC Panel or Keypad
<b>Current</b>	min. / max. 10 mA / 10 mA @ 12VDC

### Product Offering and Variants

- SPCW110.000 SiWay RF-Kit for Panel (external )
- SPCW112.000 SiWay RF-Module Universal

### Key Features

- Module pluggable on SPC controller boards and SPC Standard Keypads
- Enables the use of SiWay detectors and peripherals

# SPCN110

## PSTN Interface Module

### Product Highlights

- The SPCN110 is an interface module which will enable the SPC control panel to communicate via the PSTN Network

### Technical Specification

<b>Interface</b>	SPC modem connector
<b>Communication</b>	PPP dial up V.90 (56k fax modem)
<b>Status LED's</b>	PSTN line fault Carrier signal detection On/off hook status Normal operation
<b>Power Supply</b>	Via SPC Controller
<b>Current</b>	min. / max. 25 mA / 35 mA @ 12VDC

### Product Offering and Variants

SPCN110.000    PSTN Interface Module

### Key Features

- Module pluggable on all SPC controller board
- PSTN can be used as primary communication path or backup channel (GSM, IP)
- Multi Event transmission with standard protocols (e.g. SIA, Contact ID)
- Remote system configuration & monitoring

# SPCN310

## GSM/GPRS Interface Module

### Product Highlights

- The SPCN310 is an interface module which will enable the SPC control panel to communicate over a GSM/GPRS network.

### Technical Specification

<b>Interface</b>	SPC modem connector
<b>Communication</b>	PPP dial up, SMS, GPRS
<b>GSM/GPRS Module</b>	Dual band 900/1800 MHz
<b>Status LED's</b>	Signal strength status Mast registration status Carrier / call status Operation status
<b>Supply</b>	Via SPC controller
<b>Antenna</b>	Supplied (cabinet mounting)
<b>Current</b>	min. / max. 40 mA / 130 mA @ 12VDC

### Product Offering and Variants

SPCN310.000 GSM/GPRS Interface Module

### Key Features

- Module pluggable on all SPC controller board
- GSM (data) used as primary communication path or PSTN backup path for
  - multi-event alarm transmission to SIA / Contact ID standard receivers
  - remote configuration and maintenance (from/to SPC Pro / SPC RM)
- GPRS used as backup Ethernet communication path for
  - AoIP alarm event transmission to SPC Com XT (EDP protocol)
- Send and Receive SMS

\* Note: Services initiated from outside (e.g. SPC Safe/RM/Web) are not supported via GPRS.

# SPCN910

## Communication Interface Module

### Product Highlights

- The SPCN910.000 is an interface module which will enable the SPC control panel to support secure alarm signalling services offered within the UK.

### Technical Specification

<b>Interface</b>	SPC modem connector
<b>Comm Interface Modules</b>	The following 3rd party interface modules are supported: <ul style="list-style-type: none"> <li>▪ Redcare Classic</li> <li>▪ Redcare GSM</li> <li>▪ Redcare Secure</li> <li>▪ CSL DualCom</li> </ul>
<b>FW requirements</b>	V2.x or higher required

### Product Offering and Variants

SPCN910.000    Comms Interface Module

### Key Features

- Module pluggable on all SPC controller board
- Enables the use of 3rd party interface modules for alarm transmission in UK (Redcare Classic/GSM/Secure, DualCom CS)

## SPC

### Accessory products

#### Product Highlights

#### Technical Specification

<b>Wireless Antenna Kit</b>	Antennas Frequency	868MHz, for SiWay AND GSM
	Mounting	Externally mounted
	Content	Aerial and mounting brackets
	Cable length	2m

---

**Backtamper and Mounting Kits** For SPC panels / power supplies (G3 housings)

---

<b>Fast Programmers</b>	For easy programming of SPC panels		
	Capacity	Memory	8MB
		Configuration files	up to 100
	Interfaces	To PC	USB
To controller		10-Pin connector	

---

**Flush Mount Kit** For SPCK62x Comfort Keypads or SPCE110/120 Keyswitch / Indication Expander.

#### Product Offering and Variants

SPCW101.000	Wireless antenna and mounting kit
SPCX410.000	Fast Programmer
SPCY130.000	Backtamper kit for SPC G3 housings
SPCY620.000	Flush Mount Kit for SPCK62x

#### Key Features

- Range of accessories for the SPC system available to cover specific application needs.

**Thank you for your attention!**
