- The building application services offered do not include changes to the site plans or inspections demanded by local authorities
- Duration of construction work is a maximum of 6 months.

**About om Norconsult**

Norconsult AS has significant experience and competency of consultancy, design and independent assessment within the areas of expertise required. We have the highest possible category of approval for works of this nature and the assignment is of significant interest to us. Should the need for design or consultancy services beyond those described in our offer arise, we would be able to accommodate this at short notice. Norconsult has approximately 3000 employees in Norway, and is the largest multi-discipline engineering consultancy in the country.

The professional resources included in the offer will be based primarily from Norconsult's office in Os.

We hope our offer meets with your approval, and look forward to a constructive working relationship.

Regards

**Norconsult AS**
